

# TeamViewer Download and Setup

1. Download one of the two Teamviewer downloads based on Help Desk technician suggestion (usually this is the ‘Quick Support Version’).
2. Below is where you will find the Teamviewer version downloaded in step 1 above based on what web browser you are using:

	<p><b>Google Chrome Browser</b></p>  <p>Download Found at: (Bottom Left) – Double click to install</p>
	<p><b>Step 1: Firefox Browser</b></p>  <p>Click “Save File”</p>
	<p><b>Step 2: Firefox Browser</b></p>  <p>Double-Click to install</p>
	<p><b>Microsoft Edge Browser</b></p>  <p>Download Found at: (Bottom Left) – Double click to install</p>

3. This is what you will see once installation is run:

You will give the Help Desk technician when asked “Your ID” number.  
\*\*\* Password is NOT needed
