

College Spotlight – Cleveland State University

Cleveland State University (CSU) is a public research institution with 15,648 students, 14 colleges and schools, and more than 175 academic programs. Among the most popular majors are: clinical/medical laboratory science, mechanical engineering, nursing, accounting and psychology. CSU offers real-world, hands-on learning and internship opportunities at world-renowned organizations such as Cleveland Clinic and NASA Glenn Research Center.

CSU boasts the following:

- World-class professors, including two Guggenheim Fellows, over two dozen Fulbright Fellows, an Oscar winner, a Tony winner, a Grammy winner, engineers from NASA Glenn Research Center and over a dozen members of the Cleveland Orchestra.
- Washkewicz Hall, a brand-new, 100,000-square-foot engineering research and teaching facility dedicated to producing ready-to-go-engineers.
- The School of Film & Media Arts, Ohio's only stand-alone film school
