

Clarion University of Pennsylvania
Student Spotlight!
Hakeim McKenzie, Class of 2020

Why did you select Clarion?

I selected Clarion because it was the right fit for me. I knew going into college that I wanted to have a low student to faculty ratio and Clarion provides just that. I also grew up in relatively large towns so being able to live on the flip side was very nice and made for an interesting time.

What is (was) your major?

My major is Rehabilitative Sciences with a concentration in addictions and I also have a minor in Accounting.

What do you enjoy the most about attending Clarion?

One of my favorite memories from Clarion would have to be getting my mind blown by Mike Super's magic performance a few years back.

What would you say to students considering attending Clarion?

To the students who are considering CU, this is a major life decision so don't take it lightly. In my opinion, Clarion has everything you need to experience the "college life". I spent 5 years at Clarion and have not regretted a single day.

What do you miss most about being at Clarion?

What I miss most about Clarion is the access to the hiking trail and being able to go whenever I wanted to.

What have you learned from working with the UB and TS programs?

Through my experience working with UB and TS, I have noticed that the students who put in the work and effort with their after-school programming do very well in Secondary Ed whether they come to Clarion or not.
