# Teachers Prepared

On this page, enter the number of program completers by the subject area in which they were prepared to teach, and by their academic majors. Note that an individual can be counted in more than one academic major and subject area. For example, if an individual is prepared to teach Elementary Education and Mathematics, that individual should be counted in both subject areas. If no individuals were prepared in a particular academic major or subject area, you may leave the cell blank. Please use the "Other" category sparingly, if there is no similar subject area or academic major listed. In these cases, you should use the text box to describe the subject area(s) and/or the academic major(s) counted in the "Other" category.

If your IHE offers both traditional and alternative programs, be sure to enter the program completers in the appropriate reports. For the traditional report, provide only the program completers in traditional programs within the IHE. For the alternative report, provide only the program completers for the alternative programs within the IHE.

After entering the teachers prepared data, save the page using the floating save box at the bottom of the page.

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

- >> [Teachers Prepared by Academic Major](#)

## Teachers Prepared by Subject Area

Please provide the number of teachers prepared by subject area for academic year 2019-20.

For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank. ([§205\(b\)\(1\)\(H\)](#))

### What are CIP Codes?

No teachers prepared in academic year 2019-20

If your program has no teachers prepared, check the box above and leave the table below blank (or [clear responses already entered](#)).

What are CIP codes? The Classification of Instructional Programs (CIP) provides a taxonomic scheme that supports the accurate tracking and reporting of fields of study and program completions activity. CIP was originally developed by the U.S. Department of Education's National Center for Education Statistics (NCES) in 1980, with revisions occurring in 1985, 1990, and 2000 (<https://nces.ed.gov/ipeds/cipcode/Default.aspx?y=55>).

## Teachers Prepared by Academic Major

Please provide the number of teachers prepared by academic major for academic year 2019-20. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. ([§205\(b\)\(1\)\(H\)](#))

Please note that the list of majors includes several "Teacher Education" majors, as well as several noneducation majors. Please use care in entering your majors to ensure education-specific majors and non-education majors are counted correctly. For example, if an individual majored in Chemistry, that individual should be counted in the "Chemistry" academic major category rather than the "Teacher Education–Chemistry" category.

# Program Assurances

THIS PAGE INCLUDES:

>> [Program Assurances](#)

Respond to the following assurances. Note: Teacher preparation programs should be prepared to provide documentation and evidence, when requested, to support the following assurances. ([§205\(a\)\(1\)\(A\)\(iii\)](#); [§206\(b\)](#))

## Program Assurances

1. Program preparation responds to the identified needs of the local educational agencies or States where the program completers are likely to teach, based on past hiring and recruitment trends.

- Yes  
 No

2. Preparation is closely linked with the needs of schools and the instructional decisions new teachers face in the classroom.

- Yes  
 No

3. Prospective special education teachers are prepared in core academic subjects and to instruct in core academic subjects.

- Yes  
 No  
 Program does not prepare special education teachers

4. Prospective general education teachers are prepared to provide instruction to students with disabilities.

- Yes  
 No

5. Prospective general education teachers are prepared to provide instruction to limited English proficient students.

- Yes  
 No

6. Prospective general education teachers are prepared to provide instruction to students from low-income families.

- Yes  
 No

7. Prospective teachers are prepared to effectively teach in urban and rural schools, as applicable.

- Yes  
 No

8. Describe your institution's most successful strategies in meeting the assurances listed above:

Special Education teachers receive a thorough knowledge of evidence-based technologies for identifying, instructing, and assessing students with special needs including Introduction to Conditions, Learning & Behavioral Disorders, Applied Behavioral Analysis, and Methods for High and Low Incidence conditions. Special Education candidates also have 2 courses specific to teaching mathematics, 2 courses specific to teaching reading, and 1 course specific to Assessment including practice giving and analyzing the KTEA. General Education candidates receive 9 credits of Special Education instruction including an Introduction to Conditions, Differentiated Instruction, and Methods for teaching in an inclusive classroom. All candidates, regardless of major, take a 3 credit course in English Language Learner instruction. Urban school training is received through a course in Multicultural Education and through field experiences that are open to the candidates. Further education on ELL and diverse populations comes through our C3 initiative. This effort is a collaboration with International Programs office and connects candidates with actual ELLs in other countries such as Spain, Morocco, and Korea among others. Candidates used strategies learned in the course to aid students in non-English speaking countries to

converse and learn content in English. This project is expanding with a partnership being forged with a K-12 school in Spain as well as with a University in Morocco. Additional diverse experiences are obtained through our Early Childhood Residency program, our partnerships with our region schools (almost all of which are considered High Need and Low SES), and a developing Urban experience with schools in Pittsburgh.

## Annual Goals: Mathematics

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

- >> [Set Next Year's Goal \(2021-22\)](#)

## Report Progress on Last Year's Goal (2019-20)

1. Did your program prepare teachers in mathematics in 2019-20?

If no, leave remaining questions for 2019-20 blank (or [clear responses already entered](#)).

- Yes  
 No

2. Describe your goal.

We had a goal to add 3 Math Education students over 2018-2019 and we met that goal through use of the additional Math Educator, advertising gain through making the School of Education its own entity and placing it under its own Dean, and promotion of the program due to teacher shortage in PA.

3. Did your program meet the goal?

- Yes  
 No

4. Description of strategies used to achieve goal, if applicable:

5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

6. Provide any additional comments, exceptions and explanations below:

## Review Current Year's Goal (2020-21)

7. Is your program preparing teachers in mathematics in 2020-21? If no, leave the next question blank.

- Yes  
 No

8. Describe your goal.

Add 1 Math Education student to previous enrollment numbers. This number has been modified due to the questions surrounding undergraduate enrollment numbers across programs at the University due to the pandemic. Teacher shortages, however, still persist and the employment outlook for Math teachers is stronger than in other fields.

## Set Next Year's Goal (2021-22)

9. Will your program prepare teachers in mathematics in 2021-22? If no, leave the next question blank.

- Yes  
 No

10. Describe your goal.

Add two mathematics students above last year's enrollment. Using the new Post-Bac program, we will enroll more non-traditional students/career changers into this completely online certification program.

## Report Progress on Last Year's Goal (2019-20)

1. Did your program prepare teachers in special education in 2019-20?

If no, leave remaining questions for 2019-20 blank (or [clear responses already entered](#)).

- Yes  
 No

2. Describe your goal.

Add 10 Special Education majors to the current enrollment. New certification and non-certification tracks have been developed in Special Education. Changes to state regulations should help bolster numbers but pandemic effects make predictions much more difficult.

3. Did your program meet the goal?

- Yes  
 No

4. Description of strategies used to achieve goal, if applicable:

5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

6. Provide any additional comments, exceptions and explanations below:

Increased marketing and state certification changes will serve to increase numbers in this program.

## Review Current Year's Goal (2020-21)

7. Is your program preparing teachers in special education in 2020-21? If no, leave the next question blank.

- Yes  
 No

8. Describe your goal.

Add 15 Special Education additional majors to enrollment figures. New certifications take complete effect in 2021 and old certifications will no longer be available. Students taking a "gap year" due to pandemic effects should be returning.

## Set Next Year's Goal (2021-22)

9. Will your program prepare teachers in special education in 2021-22? If no, leave the next question blank.

- Yes  
 No

10. Describe your goal.

Add 5 Special Education Teachers over last year's enrollment. Transition from the 5-year intervention specialist program to 4-year PK-12 program should increase interest.

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period. **(§205(a)(1)(B))**

## Use of Technology

1. Provide the following information about the use of technology in your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request. ([§205\(a\)\(1\)\(F\)](#))

Does your program prepare teachers to:

- a. integrate technology effectively into curricula and instruction

Yes  
 No

- b. use technology effectively to collect data to improve teaching and learning

Yes  
 No

- c. use technology effectively to manage data to improve teaching and learning

Yes  
 No

- d. use technology effectively to analyze data to improve teaching and learning

Yes  
 No

2. Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

All faculty model the use of integrated technology with their D2L course sites. Students access course content, submit documents, take quizzes, participate in online discussions, and monitor their course grade through this technology. In many of the methods courses, faculty assign technology integration components in the content area lesson planning. All students take a technology integration course (ECH 417: Technology Integration for Early Childhood Educators or ED 417: Technology Integration for Middle Level and High School Educators) that includes experience designing lessons with Google Classroom and the use of interactive whiteboards, educational apps and iPads, using spreadsheets, and online polling applications to collect and analyze data, design rubrics with online generators, and navigate the PDE Standards Aligned System website for instructional materials and assessments. The Electronic Portfolio Assessment has been integrated into all technology courses to assess students' ability to meet the ISTE standards. Students prepare during their student teaching a Teacher Candidate Work Sample that documents their ability to collect and analyze data to improve student achievement and react to the data to adjust their teaching. All components of the teacher preparation program complete annual assessment cycle reviews to collect, analyze, and determine if follow-up actions are needed to strengthen the program. New insights into teaching via technology have been gained through the adjustments made during the pandemic. Parts of student teaching and the other field experiences were conducted virtually via teleconferencing and other web applications. Videos, case studies, and interactive experiences were all used to complete the clinical experiences. The curriculum will be adjusted to include more of these experiences intentionally to prepare students to teach remotely if

necessary.

Provide the following information about your teacher preparation program.

**(§205(a)(1)(G))**

## Teacher Training

### 1. Provide a description of the activities that prepare general education teachers to:

#### a. Teach students with disabilities effectively

All general education students are required to take 9 credits of special education including three 3 credit courses in (1) Introduction to conditions, (2) Differentiated Instruction, and (3) Teaching in an Inclusive Classroom.

#### b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

Students are encouraged to participate on IEP teams during field and student teaching experiences as allowed by the mentor teacher and partnering LEA. Discussions about how to read and react to an IEP as well as how to be an effective IEP team member occur in the course on Teaching in an Inclusive Classroom

#### c. Effectively teach students who are limited English proficient.

All students take one 3 credit course on instruction of ELLs and participate in field experiences to implement strategies with ELL students in various countries.

### 2. Does your program prepare special education teachers?

 Yes

 No

If yes, provide a description of the activities that prepare *special education teachers* to:

#### a. Teach students with disabilities effectively

Special Education teachers are prepared according to PA state guidelines as well as in programs accredited by CAEP and IDA. With a focus on Direct Instruction and Applied Behavior Analysis, each student is required to take courses in Conditions including LD and BD, ABA, Assessment, Reading methods, Math methods, (both specific to students with disabilities), High Incidence and Low Incidence methods, along with a range of field experiences.

#### b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

Special Education students learn about and a required to develop an IEP during their program. Students are also required to participate in IEP meetings and employ IEPs in their classrooms during field experiences and student teaching

**c. Effectively teach students who are limited English proficient.**

All students take one 3 credit course on instruction of ELLs and participate in field experiences to implement strategies with ELL students in various countries.
