Clarion University's History Club seeks to engage students in historical inquiry and promote professional growth. The Club organizes activities for members, including film screenings, guest speakers, cultural nights, field trips, and joint endeavors with Phi Alpha Theta. We also volunteer at the Clarion Historical Society, help connect students with local internships and offer workshops on the graduate school application process. The History Club is open to all Clarion University students, regardless of major or grade point average. Meetings are held twice a month in Founders Hall. Joining the History Club is a great way to meet other students who share your passion for history.
