The Philosophy Club is open to all students.

Each week, club members choose a topic for discussion and attempt to make some progress in answering the challenging questions concerning it. Topics vary according to member's interests, and have included discussions about various aspects of our lives and the world around us. Guest speakers have been invited to campus by the club, and the club has been involved with working with other clubs on campus. Additionally, club members have presented their own papers at club meetings to get feedback and generate discussions, and members have attended and presented papers at regional philosophy conferences.

Joining the club is a wonderful way to actively engage your mind.

Meetings are held once a week during the evening in Founders Hall.
