PROGRAM NOTES:

- 1) Chemistry majors are required to take MATH 270, 271, and either Physics 251, 252, or Physics 258, 259, 268, 269 and may elect to place these courses under I. Liberal Education Skills or II. Liberal Knowledge.
- 2) In addition to the requirements above, an American Chemical Society certified degree requires sufficient laboratory work to bring the total, post-introductory chemistry laboratory hours to 400 (8 labs with CHEM 257) and BCHM 453. The additional lab hours can come from BCHM 463 or courses that consist entirely of research that culminates in a comprehensive written report. BCHM 453 and BCHM 463 or CHEM 465/466 can be used to fulfill requirements in category B and ACS certification.
