SUMMER ACADEMY 2018

FISHERIES *and*
WILDLIFE BIOLOGY

JULY 22-28, 2018

150TH ANNIVERSARY
CLARION
UNIVERSITY

HONORS
PROGRAM

FISHERIES *and* WILDLIFE BIOLOGY

*Do you enjoy the outdoors?
Are you interested in wildlife?
Do you care about conservation?*

Join us for a field-based research experience in the fundamentals of natural resource conservation.

“This is an exciting and unique opportunity to explore questions about an important societal issue. How do we sustain fish and wildlife populations and what are the best solutions for restoration and management in a changing world?”

**Dr. Kurt Regester,
Instructor**

In this week-long academy, high school students will learn how to manage fish and wildlife populations and evaluate critical features of their habitats. Students will conduct field projects in which they will design their own research studies, shape data analyses and propose management strategies.

In addition, they will have the opportunity to interact with professionals in the field to learn more about career opportunities in fisheries and wildlife.

about **THE PROGRAM**

FACILITY

State-of-the-art labs in the new Grunenwald Science and Technology Center.

FACULTY

DR. KURT REGISTER
Dept. of Biology

DR. ANDREW TURNER
Dept. of Biology

BRIANNA REED
Dept. of Biology
