Dear Faculty: Information Literacy Instruction Is Here!

Do your students need advice on how to locate and critically assess scholarly information resources for your discipline? We can help!

Librarians work with you to create an interactive session that meets the outcomes you have set for your students for the course or a specific student assessment or assignment.

Librarians collaborate with you to create course-specific and discipline-specific LibGuides (pathfinders) that can be embedded into your D2L course site.

Do you have a large class? **A Librarian can come to you.**

Do you want to use only part of a class period? **Librarians work with you to meet your needs.**

If you would like a librarian to facilitate an information literacy session for your Clarion or Venango campus class, D2L online class, and/or distance class, please contact Karen Sheesman at 814-393-1841 to reserve a time slot.

Clarion campus sessions are held in Room 201 of Carlson Library (the instruction computer lab) unless alternate arrangements are made.

Clarion Online sessions use D2L’s Blackboard Collaborate web-conferencing tool or Mediasite. Sessions can be real-time, interactive, and recorded for viewing by students unable to attend the live session.

We look forward to working with you on meeting the information literacy standards!

**Cheresnowski Retires**

The S.W.A.T. Minion’s Tip: Can’t Sleep?

Are you having trouble getting to sleep - or staying asleep - at night? It’s time to ditch the electronics at bedtime.

Playing a game, checking Facebook, or watching a video seems like a great way to wind down. However, the light from the screen can actually stimulate you and make it harder to go to sleep. The blue light given off by LED screens tells your brain that it is daytime...time to get up! Try putting all of your devices away an hour or two before bed. Read a physical book or a non-backlit eReader or just listen to music.

The absolute worst thing to do if you wake up in the night is to pick up your phone or tablet or turn on your PC. You will just wake yourself up more.

Although there are apps that will adjust the brightness of your screen as you approach bedtime, your best bet is to quiet your mind and turn off your electronics.
**deferential**

**PRONUNCIATION:**
def er EN shull

**MEANING:**
To defer to someone, or to show deference to someone, is to show that the other person is better than you somehow: more skilled, more wise or knowledgeable, etc.

So, someone or something deferential is respectful toward others in a humble way.

**USAGE:**
Often you say that something or someone is deferential to (or toward) someone else: "she’s deferential to her professors," "he keeps his tone deferential toward the review committee."

But you can also talk about deferential things, people, and personalities: deferential comments, deferential students, a deferential attitude, her deferential reserve, the pamphlet’s deferential language, my deferential disposition, etc.

Although we do not “repair” computers, the **S.W.A.T. Team** (Students Who Assist [with] Technology) on Level A of Carlson Library is always happy to help. Having an issue? Let us take a swat at it!

**Something To Think About:**

I am I plus my surroundings and if I do not preserve the latter, I do not preserve myself.
