### CU LIBRARIES' LINKS:

*Inside The Clarion University*

The Clarion University Libraries newsletter is published weekly when classes are in session. Through *INSIDE*, we share information about our services and resources with the campus community. *INSIDE* is best viewed with Microsoft Outlook. However, you can read a PDF version of *INSIDE* online through the [Libraries' homepage](#).

### EAGLE DOLLARS ACCEPTED AT CARLSON

Have a fine at the library and no cash?

Carlson Library now accepts University Eagle Dollars to pay for library fines and lost books. Just let the staff person on duty at the Carlson Library Circulation Desk know that you want to take care of

your obligation with Eagle Dollars and present your ID card. They will take care of the rest.

You may also use your ID card and Eagle Dollars to pay for computer printing. Regrettably, the copy machines only accept cash. If you have questions, please let us know.

### TEXT A LIBRARIAN

Did you know that you can text a librarian and ask for research assistance? In addition to in-person consultation, phone calls, Chat and email messages, you may contact our reference librarians by texting.

Send your questions via SMS text to our email address: [libsupport@clarion.edu](mailto:libsupport@clarion.edu). Note: Standard messaging rates apply.

Remember that SMS stands for Short Message Service. If the question (or answer) requires in-depth discussion, you probably should contact the Reference Librarian using one of the other options.

- Call Carlson Library (Clarion Campus) at
  - 814-393-2490 or 814-393-1841.

## COMPUTER TIP: TRANSITION POWERPOINT SLIDES WITH A SINGLE CLICK!

If you're a person who likes to use transition effects when moving your presentation from one slide to the next, and if you favor consistency in your choice of transition, then you've probably found yourself looking at something like this...

while you select a slide, apply the transition effect, move to the next slide, apply effect, move to the next slide...

(Slide transition choices are located on the **Animations tab** in **PowerPoint 2007** and on the **Transitions tab** in **PowerPoint 2010**.)

Well, you get the picture.

Or maybe you took the time to select all your slides and then applied the transition effect. That one isn't a bad method at all – pretty efficient in fact – but I have one that might be just a teeny tiny bit faster.

The key to the idea is a single button, often overlooked; to the right of your transition effect choices... see it?

Yep, that says **Apply To All**.

Instead of moving on to the next slide when you're done applying a transition effect for one slide, simply **click the Apply To All button**.

It's that easy – 2 quick clicks – click to select a transition then click to apply to all – your slide transitions are set and completely consistent.
