

## **Institute for Experiential Learning - The Capital Experience**

Graduate or undergraduate students who are chosen for this opportunity must have a 2.5 QPA, and are awarded a full semester's worth of credit. Each intern works for four days per week in government agencies, businesses, and law firms, for example, and are usually affiliated with the intern's major field of study. One day per week, the intern attends two seminars: the experiential education seminar, which allows the group of interns to discuss the activities in their internships, and an elective seminar, which is chosen from a current list. Interns can reside in a housing complex or individual apartments in Northern Virginia, and financial aid is applicable to this internship. For more information, visit [www.ielnet.org](http://www.ielnet.org), or write to:
