

## BS Integrative Studies: Athletic Coaching

### Learning Outcomes

After successfully completing this program, students will be able to:

1. Demonstrate the character, integrity, and professional responsibility needed to assume a career in an athletic coaching field.
2. Develop a comprehensive plan for coaching a sport team that includes an off-season, preseason, and in-season segment.
3. Publicly communicate and explain your own personal philosophy of coaching to a group of people.
4. Demonstrate a fundamental understanding of the basic offensive and defensive strategy of a particular sport.
5. Demonstrate an understanding of game day management, personnel management, budget planning, risk management, and equipment management as each pertains to the realm of successful athletic coaching.
6. Identify career opportunities in athletic coaching and provide strategies for pursuing employment.
