

## Early Childhood Education Minor

### Learning Outcomes

After successfully completing this program, students will be able to:

1. Display knowledge, skills and dispositions reflecting developmentally appropriate practices, including culturally responsive teaching practices.

**Objective/Learning Outcome 1.A** – Students will guide and assess young children in classroom settings to develop skills and knowledge in all learning domains, including social, emotional, physical, cognitive, language, and adaptive.

**Objective/Learning Outcome 1.B** – Students will display appropriate dispositions according to the Clarion University School of Education Disposition Code when working with young children.

2. Follow the NAEYC Code of Ethical Conduct when interacting with young children (Birth to age 8), families, and communities.

**Objective/Learning Outcome 2.A** – Students will develop trusting and reciprocal relationships with children, family members, community members, and colleagues during field experiences.

**Objective/Learning Outcome 2.B** – Students will be familiar with and apply the Ideals and Principles of the NAEYC Code of Ethical Conduct when working with young children, family members, and community members during field experiences.
