A Working Man's Job is Accomplished by the Concrete Path that has been Laid

As a home-based business, no job is too small and no job is too big when you are willing to travel to your client's location. Steven and Kayla Haag opened Clear Run Construction & Concrete, Inc. in 2016 with the goal of providing a superior service in the construction sector offering concrete flat work including basement floors, patios, sidewalks, and countertops in multiple finishes.

In the company's first year of operation it realized over \$225,000 in income. Currently the company is on path to growing to over \$300,000 in income in 2017 and currently has four employees.

Clear Run Construction & Concrete, Inc. has performed very small jobs and even quite large jobs including large driveways and sidewalks. The company provides both residential and commercial services.

At this point in time Clear Run Construction & Concrete's geographic target market region has been a 50-mile radius of DuBois, Pennsylvania but the company would travel as far as needed for a plausible project.

Steven and Kayla Haag are so thankful for their past and current customers. "Each customer is like a friend to us. We want all of our customers to be 100 percent satisfied with their project," stated Steven Haag.

"The SBDC helped us develop a business plan so that we could obtain a line of credit that allowed us to expand. Thank you SBDC!"

-Steven Haag
